Search Navigation

BDI Express provides the option to search for a particular product in 4 unique ways: by manufacturer, by customer part number, by description, or by the side navigation bar on the left.

The screenshot displays the BDI Express website interface. At the top, there is a navigation bar with links for Home, Contact Us, and Live Help. The BDI logo is prominently featured on the left, with the tagline "World Class World Wide". A search bar is located in the center, and a "Product Catalog" button is on the right. A "Cart Details" box shows a sub-total of \$0.00. Below the search bar, there are input fields for Username and Password, and a Login button. The main content area is titled "Product Catalog" and features a "Narrow your search" sidebar on the left. This sidebar lists various search criteria such as Cage Material, Internal Clearance, and Brand. The main search results area shows 20 results for "Ball Bearings" with various filters applied, including Bore, Outside Diameter, and Enclosure. Three product listings are visible, each with a thumbnail image, manufacturer part number, brand, rating, price, and quantity options.
